## COMPANY PROFILE

Protective Packaging Corporation (PPC) was founded in 1976 as “Specialty Bags Corporation” to fulfill the packaging needs of the United States government, military, and private industry. In 1995 the company expanded its offerings and changed the name to Protective Packaging Corporation. Protective Packaging is an SBA **certified** Veteran-Owned Small Business locally owned, operated, and headquartered in Carrollton, Texas with 2 satellite offices located in Oklahoma City and Maryville, Tennessee.

Our **versatility, quality management system, and worldwide on-site services** set us apart from our competition. PPC is **ISO 9001** certified and one of the **largest converters and manufacturers of Mil-Spec barrier and Static Shielding films in the world.**

Over the last 47 years the company has become a globally recognized provider of expert packaging solutions as we design, develop, and implement rudimentary and complex protective packaging solutions for short and long-term protection against corrosion, mold, mildew, static electricity (ESD), and other environmental concerns while serving a client base that includes some of the largest corporations in the world

U.S. Army/Air Force  
U.S. Navy/Marine Corps  
U.S. Coast Guard/Army NG  
Defense Logistics Agency  
Joint Munitions Command

- Protective Covers/Tarps & Crate Liners
- Shrink Wrap Services
- Short/Long Term Preservation & Storage Solutions
- World-Wide On-Site Packaging & Consulting Services

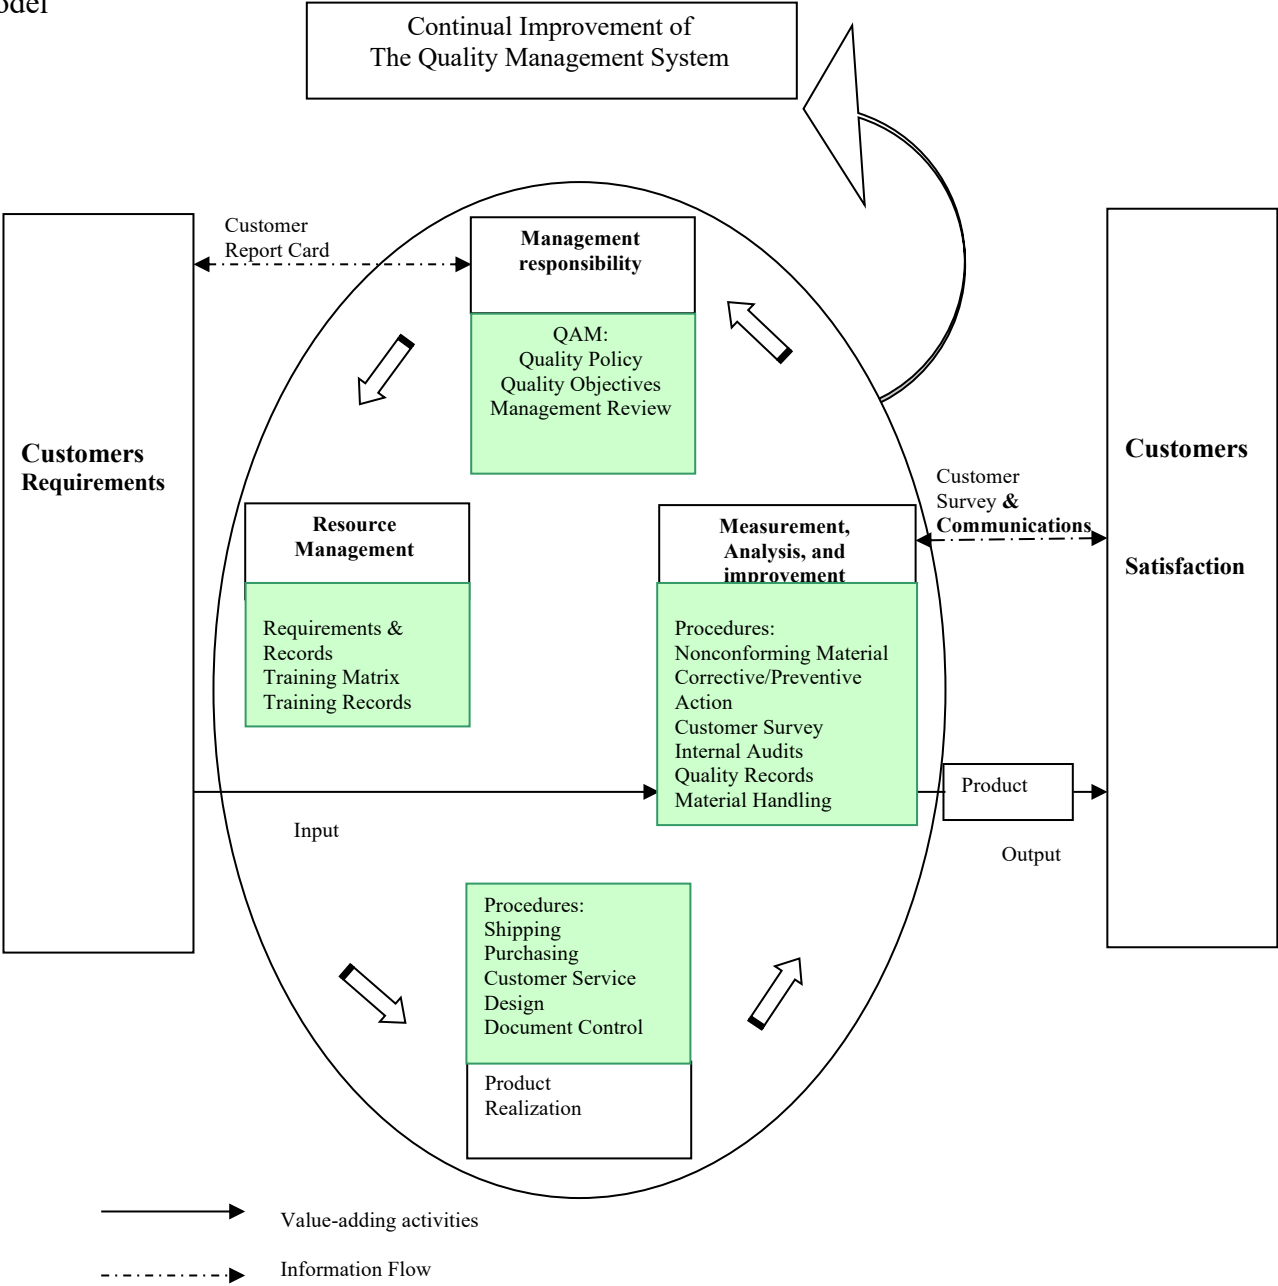

## QUALITY MANAGEMENT SYSTEM

To provide continual improvement of its effectiveness in accordance with the requirements of ISO 9001:2015, PPC has defined and mapped key processes; defined the requirements and performance criteria to ensure both effective operation and control; defined the resources and information/data needed to support the operation and monitoring of these processes; outlined the requirements for monitoring and measuring; defined the actions needed to achieve expected results; and continually improve these processes.

We strive to deliver all products and services to our customers with respect to price, delivery, and fitness for use. Product realization describes the work that our organization goes through to develop, manufacture, and deliver the finished products and/or services- we take 3 basic approaches:

- Identify quality objectives and determine product requirements
- Create the documents, processes, and obtain the required resources needed to start
- Verification, monitor and control, inspect, and test

**QMS Model**

## **ON-SITE/CONSULTING SERVICES**

World-wide on-site packaging and consulting services further set us apart from the competition. No matter where your business is located, we have a team of packaging professionals that travel the world packaging products for clients and training their personnel to do the same. Our team of packaging experts can help you find innovative ways to reduce cost and optimize the speed and performance of your packaging systems by providing:

- Current Packaging Evaluations
- Development of Corrosion Prevention or Static Shielding Solution/s
- Material Selection
- Equipment Recommendations
- On-site Inspections
- On-site Personnel for Packaging
- On-site Training
- Prototype Creation

## **INDUSTRIES SERVED**

- Automotive
- Aviation
- Construction
- Defense & Military
- Electronics
- Energy
- Logistics & Transportation
- Manufacturing

## **TARGET PROCUREMENT DEPARTMENTS**

- Parts
- Material
- Equipment
- Facilities

## **CONCLUSION**

Over the last 47 years we have traveled the world packaging and preserving products and providing tailored solutions to meet our clients' needs and expectations. Our versatility has made us the "go to" for simple and complex solutions.

As one of the largest manufacture/convertors and one of the **few** ISO 9001certified companies, we request the opportunity to showcase our capabilities and how we add value to your product lines/services.
